Skills

Languages: Python, JavaScript, C, Java, SQL, HTML, CSS.

Other Skills: Git, GitHub, Microsoft Office (Excel, Word), PowerPoint, Adobe Photoshop, Canva, Communication, Critical thinking, Problem solving, Presentation, Oral Communication, Organization Skills, Designing, Critical Thinking, Email Management, Social Media Marketing, Programming Skills, Payment processing, Content writing, Negotiation, Handling difficult people, Teamwork, Project Management, Data visualization.

Education

Malnad College of Engineering, Hassan

December 2021 - Present

B.E. in Computer Science and Engineering

CGPA: 8.06 / 10

Relevant Coursework: Object Oriented Programming, Database Management System, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Software Engineering, Data Communication, Artificial Intelligence, Web Programming, Web Development, Programming for Problem Solving, UNIX and Shell Programming, Data Science

Activities and societies:

- College Basketball team Player (2022 - Present), Joint Secretary (2024), Assistant Event Coordinator (2023), Assistant Designer (2022) of The Leo Club MCE, Hassan
-

Internships

➤ **Teccera Innovations, Hassan**

October 2023 - November 2023

Data Science Internship

Leveraged my Data science skills at a Teccera Innovations internship, where I learnt basics of data science, data analysis, Python, Machine Learning etc. This role involved working on real-life projects. This experience provided valuable hands-on training in Python and Machine Learning.

➤ **Malnad College of Engineering, Hassan**

October 2022 - November 2022

Introduction to Python Programming

Gained a solid foundation in Python programming concepts, including syntax, data structures, and control flow.

Developed practical skills in writing efficient and well-structured Python code.

Project Works

- AI Engine for Plant Disease Detection using Convolutional Neural Network (CNN):** Developed a deep learning-based system to classify leaf images into 39 different disease categories. This model employs a convolutional neural network (CNN) architecture, built using the PyTorch framework. Built interactive and user-friendly web interfaces using HTML and CSS. [GitHub](#)
 - Pet Adoption Portal using MERN stack (April 2024 - Present):** Developed a full-stack pet adoption portal named "Petzee" using MERN stack. Leveraged React for a dynamic user interface, Express.js to build APIs, MongoDB for efficient data storage, and Node.js as the runtime environment. Implemented features for pet listing, user authentication, adoption applications, and admin management. Demonstrated proficiency in JavaScript, database design, and API development. [GitHub](#)
-

Courses and Certificates

- Programming with JavaScript offered by **Meta** through Coursera. [Certificate](#)
- Machine Learning with Python (with Honors) offered by **IBM** through Coursera. [Certificate](#)
- Python Data Structures offered by **University of Michigan** through Coursera. [Certificate](#)
- Introduction to Generative AI offered by **Google Cloud** through Coursera. [Certificate](#)
- Getting started with Python offered by **University of Michigan** through Coursera. [Certificate](#)
- Data Analytics with Python - **NPTEL**. [Certificate](#)
